

Agility Training

Agility classes focus on learning equipment, mastering contact zones, getting a hang of body language, and increasing the bond with your dog. Dogs must be over one year of age and know basic obedience commands to participate.

Private Agility Lessons

Private lessons allow you to work one on one with our trainer in a distraction free environment. Shy dogs may benefit greatly from private lessons. • \$40 per session

Group Agility Classes

Group classes are a great way to desensitize your dog to the distraction of other dogs and people. Sessions are 90 minutes long and run for 6 weeks. • \$120 for 6 weeks of classes

Puppy Temperament Testing

Puppy Temperament testing is offered at 7 weeks of age. Our certified professional dog trainer will come to your location to perform the test.

Puppy temperament testing is a reliable predictor of a dog's personality, sociability, and potential trainability at maturity. The results of testing serve to match the puppy's temperament with the most suitable future environment.

Rates

For litters with three or less puppies • \$35 per puppy
For litters with four or more puppies • \$30 per puppy

Travel Fee for Temperament Testing

Northwest Canine Counseling is located in Duvall. There may be a travel fee for those who live outside of Duvall, Carnation, Redmond, Woodinville, or Monroe. Travel fees depend on litter size and distance.

Our Training Philosophy

Northwest Canine Counseling believes in a balanced and individualized approach to dog training. We help families to improve their relationship with their dogs. Fair and effective communication is the key to improving this relationship. We are committed to teaching owners to properly handle and effectively communicate with their dogs. All training is geared toward you and your dog on an individual basis. Not all dogs learn at the same speed or in the same manner. Therefore, dogs should be trained according to their personality and the goals of their owners.

About Us

Northwest Canine Counseling is owned and operated by certified professional dog trainer Dawna Andrews. Dawna has over twelve years of dog training experience, a bachelor's degree in psychology, and is certified by National K-9 School for Dog Trainers and International Association of Canine Professionals. She has extensive experience training dogs in all levels of obedience along with solving behavioral problems and teaching dogs good manners. She is also experienced in agility, puppy temperament testing, utility training, therapy dogs, handicap assistance dogs, scent detection, tracking, soft mouth retrieval, personal protection, and canine good citizenship training/evaluating.

Obedience Training Programs

Private Lessons

Private lessons are intended to teach you how to train your dog. Each lesson is geared toward you and your dog on an individual

basis. There is no set limit on how many lessons you can take. We encourage the whole family to participate when possible.

Session at our location • \$45

In-home session • \$60

Day Training

Dogs who participate in day training are dropped off at our location in the morning and will spend their day being trained and then are picked up by their owners in the evening. After their training is complete, owners will receive private lessons with our instructor to help you understand the commands and how to generalize behaviors to other environments.

5 days (heel, sit, down, stay, and come) • \$325

During the 5 day program, dogs will learn basic obedience commands along with manners. Price includes two private lessons.

10 days (heel, sit, down, stay, come, sit from down, down and sit in motion, and stay while owner is out of sight) • \$625

During the 10 day program, dogs will learn basic obedience commands along with manners. Price includes three private lessons.

Board & Train

Dogs who participate in the board and train program will spend 24 hours a day with our trainer. This program is intended for owners who would like to

go on vacation while their dog is being trained or for dogs that need a little more intensive training. After their training is complete, owners will receive private lessons with our trainer to help you understand the commands and how to generalize behaviors to other environments.
